Treating Our Families Naturally

Spring 2015

SPRING 2015

Now is the time for all good homeopaths to show their faces. Health Canada has regulated the profession in Ontario and any homeopath who is not registered with the newly formed College of Homeopaths cannot practice ... at all! The registration was a year long time consuming application process and finally, I am registered and therefore able to call myself a homeopath and practice since April 1, 2015. This tightening up of the profession is good for the public and the coverage by insurance companies.

I have set up my website to allow the public to utilize **ONLINE BOOKING** of their own appointments so check that out.

I am offering **Comprehensive Nutritional Assessments** that use bodily symptoms and signs to determine in a computerized program, what supplements you really need ... it takes the guess work out of buying these and pin points health issues you may not be aware of such as undiagnosed low thyroid problems.

Cost is \$125.00 for the very detailed assessment and advice.

I have beautiful tinctures for weight loss, and for toning up sluggish circulation. I have increased my stock of remedies so it will be easier to purchase these directly and not have to run to the pharmacy.

My fees are restructured too. \$80.00 per hour for all adult visits, \$60.00 per hour for children and seniors.

In the past I have treated pets for people, everything from ear problems to dental abscesses. I have now formally added the **Treatment of Pets. Cost is \$60.00 for consult.**

Please take advantage of this very cost efficient and effective way to treat health conditions in dogs and cats especially. They respond quickly and nicely to homeopathic care.

To all those hard working people who never think of pampering themselves (mostly women but men too) I direct this note. **NOW IS THE TIME TO TAKE TIME ONLY FOR YOURSELF.** Have a massage,

visit a spa, take a holiday (it's ok to do this, in fact it's necessary. it doesn't mean you are a slacker.) Do things that give you pleasure, recharge whenever you can, rest, relax and do all of this without guilt. All those who love and depend on you will benefit by you taking care of yourself. This doesn't mean just diet and exercise. Have you noticed that these two latter can be stressful? This is related to mind pressures, ongoing responsibilities, self-imposed take-charge issues, run the show issues, being able to juggle everything and do it well....all of these modern tendencies are wearing us out. I see it all the time in the clinic, even in young people. So make this a "me" year.

New Slogan: Me At My Best For Others

Come by for a spring tune up, you know... like we do with our cars and lawn mowers. Don't let life get the better of you before you ask for help.

That is what I am here for ... best wishes !

With best regards and appreciation, Janee Niebler.

THE HOMEOPATHY CLINIC

1462 Hurontario Street, Mississauga (two blocks south of QEW, at Indian Valley Trail)
