

FEBRUARY 2013

THE E-BOOK HAS ARRIVED!

Announcing the launch of the E-Book version of **HOMEOPATHY: A MANUAL FOR MOTHERS.**

I wrote this book so that moms who like homeopathy and are interested in learning how to treat their children for common sudden illnesses can now have a reference book.

Now for only \$12.95, you can download the E-Book directly onto your personal device from my website.

If your child needs a homeopathic remedy for a cold, sore throat, ear ache etc. remedies will be there at your fingertips to give you that quick choice of a remedy for your child. Check my website for order instructions.

HERE'S THE FLU!

This year's flu has arrived early and it is advisable to act quickly to prevent it. First, I

have available this year's preparation of Influenzinum to boost the immune system so you will be less likely to even get the flu. Second, if you already have the flu, I will give you the best medicine to address your particular group of symptoms. It will work quickly for you and you will be back to your life in a timely fashion. It is particularly during these acute illnesses that you can see the speed of healing in homeopathy.

HEALING THE GUT

Conventional medicine is realizing the importance of the gut or intestinal health in determining health status in everything from skin conditions to depression, Autism, ADHD etc. Homeopathy was already there. I attended a European Seminar recently and paid great attention to a group of remedies that focus specifically on the entire digestive tract. These homeopathic remedies are

used to heal the dysbiosis or imbalance caused by acquired bacteria such as salmonella, e-coli, environmental toxins etc.

The bottom line is that a gut out of balance from years of antibiotic use and other assaults such as vaccines and even simply aging can cause a myriad of problems from arthritis, skin conditions, and multiple allergies to mental and emotional disorders. Colonics and herbal organ cleanses only do the local flush of the bowel or treat specific organs like the liver and kidney. The homeopathic intestinal remedies act directly on the entire gastrointestinal tract to heal it.

I am very pleased with the results I am seeing in the clinic using, where indicated, these "gut" remedies.

HAVE A GREAT NEW YEAR AHEAD
